

User stories

1. As a customer I want to see only the most recent few devices so that I can have a better idea of what to buy
 - a. Only lists the most recent 5 devices both in the top and in their comparison section
2. As a programmer I want to be able to compare devices to better suit my job needs
 - a. Comparison button is front and center at the top and is a large portion of the site when scrolled down to
3. As a low-income person I want to have some cheaper options so that I can work a device into my budget
 - a. Devices are listed in descending order from more expensive to more affordable
4. As a consumer I want to be able to see accessories for my selected product so that I know they are compatible
 - a. At checkout accessories that work with, or are related to, your device in cart are recommended to you
5. As a customer I want to see a variety of ways to buy an iPhone so that I can find which one works for me
 - a. There is a large amount of the site dedicated to how you could purchase an iPhone
